Steward(s) Aug2003:	Volunteer(s) 3
Steward(s) Dec2011:	yes
Petroleum & Natural Gas Surface Access Aug2002:	Conditional
Day Use Site(s):	Carnwood Modeste
Recreation Activities:	none noted

Access:

Notes: The Carnwood Modeste Natural Area encompasses a creek & steep embankment incised by several small streams; mainly mixedwood of aspen-spruce-balsam poplar.

This site lies in the Boreal Forest Natural Region, Dry Mixedwood Sub-region. The Dry Mixedwood Sub-region is the only Boreal Forest sub-region that does not have excellent representation within Alberta's parks and protected areas network. There are still significant shortfalls in the glacial lakebed, ground moraine, sandplain and sand dune natural history themes. Listed in "Other Natural Areas" (Alberta Parks web site, 2012).
