| Steward(s) Aug2003: | Volunteer(s) 2+ |
| Steward(s) Dec2011: | yes |
| Petroleum & Natural Gas Surface Access Aug2002: | No Surface Access |
| Day Use Site(s): | Mt. Livingstone |
| Recreation Activities: | Camping - Backcountry |

Access:

Notes: Mt. Livingstone Natural Area (5.35 km²) has 1000 metres of relief. It contains unusual fescue grasslands well above the elevations at which they are usually found. The site lies in the Rocky Mountain Natural Region, Alpine and Sub-alpine Sub-regions. The Alpine and Sub-alpine sub-regions of the Rocky Mountain Natural Region are well represented within the parks and protected areas network. All of the level 1 and level 2 natural history themes are represented, as are many of the known special features (Alberta Parks web site, 2012).
